Circuit Court Is Still Grinding

The court room was filled with Japanese yesterday afternoon when the case of Nakamura charged with the murder of a countryman, came to an end and was passed up to the jury, which, after short deliberation, rendered a verdict of murder in the first degree. The murder for which Nakamura was convicted was the killing of a camp boss in Makaweli on the night of Oct. 11th. This is probably the record for speed of any trial so far recorded in our local court, the murderer being arrested, tried and convicted in a little more than a month's time. Nakamura is known among the Japanese as a "bad" man, having for some time acted in such a way as to get the ill will of the entire community. Sentence will be pronounced tomorrow morning.

In the case of Ter. Hawaii vs. McKeague, the defendant plead guilty and was fined \$500.00.

A Korean was sent up for two years for burglary, and a Filipino is on trial today, charged with being to active with a knife.

'NEATH THE SHADE OF THE BANANA TREE

'Neath the shade of his ba-na-na tree,
Stood Charlie with guards two or three
Says he to his guard,
'Keep 'em out of my yard
While I tend to Dr. Curree.
For they'll touch not my ba-na-na tree.'

'Neath the shade of that ba-na-na tree,
Mosquitoes by buckets there be,
And inspectors by scores
Come marching in fours,
Singing in sweet melody
As they hack down that ba-na-na tree.'

Korean Would Kill His Wife

(Special to the Garden Island)
HANAMAULU, Nov., 10.—Consternation reigned supreme here for a short time this afternoon when Kim, a Korean, residing in Kapapa attempted to finish up his wife with a butcher's knife.

The woman eluded the frenzied brute and in due time reached the Hanamaulu plantation office, where she was instructed to remain until the police arrived. The husband shortly afterward appeared on the scene and was directed towards Kapapa, as a ruse to allow time for the coming of the police, who upon arrival, had no difficulty in locating the would-be-murderer. He was taken into custody and is in line for an audience with Judge C. S. Dole. The woman was unharmed save the severe shock from the narrow escape.

Pertinent Paragraphs

HON. C. A. RICE.—Now that we have an architect on the grounds what's the matter with having him do little work on that County building. We could take the \$30,000 out \$100,000 which Oahu wanted and go right ahead with our County building, and the money which was allowed for this purpose could replace this amount later on. This would give us at once a building which is badly needed. It seems to me that this might be very easily done.

ARCHITECT RIPLEY.—We are going to give Hanapepe a school built along the lines embodying Superintendent Pope's ideas as well as those of Mr. Brodies. Every modern idea in schoolhouse construction will be developed and when finished will be one of which the people will have just cause to feel proud.

JUDGE C. S. DOLE.—W. F. Frear has made the best record of any governor this Territory has ever had. He is inclined however, to be too conservative—a conservatism to which he was naturally trained by his long service in the Supreme Court, in his advancement of the measures necessary for the opening up of our public lands for the settlement of a citizen population.

New Chinese Flag Floats In Kapapa

Kapapa flies the flag of the New Chinese republic. The main body of the flag is red with a square of blue in the upper right hand corner on which is spread a many pointed star. The Kapapa Chinese are proud of it.

Lady Blacksmiths Busy In Kapapa

Kapapa boasts of two lady Blacksmiths—comely ladies too they are—with health and vigor, even if not beauty, shining in every lineament. We would respectfully recommend this kind of exercise to our sisters who tread the high walks of life.

ENROLLMENT IN THE PUBLIC SCHOOLS ON THE GARDEN ISLAND

The following table will show to what extent that part of the law wherein a teacher is supposed to have but 35 pupils, is treated by the Board of Education. It will be observed that with but few exceptions, the enrollment is far in excess of the requirements. These exceptions are:

Hanalei, 36; Lihue, 37; Kekaha, 37; Niihau, 37; while there is but a single instance where a school has less than the law calls for. This school is Koolau, with an enrollment of 30 each. This table is furnished by Supervising Principal of Schools Brodie, and must be considered authentic. A little figuring brings out the fact that there are registered in the public schools of Kauai to-day, 130 too
